

## Location and Identification Maps

As Trees of Distinction are identified, a Trees of Distinction/Historical walk tour has been developed to identify the location of each Tree of Distinction within the City of Webster Groves. The map includes a walking route so you can see them all.

The map also includes the outstanding features which are represented by the tree or group of trees including species, size, age, and historical data.

The map will be revised after new Trees of Distinction are selected each year.

## Trees of Distinction

# Purpose and Eligibility

The Trees of Distinction Program has been established by the City of Webster Groves to raise public awareness of the importance of trees to the City's rich history, heritage, culture, and beauty.

The primary purpose of the Trees of Distinction Program is to locate, document and compile a record of the significant public and private trees or grouping of trees located within the City of Webster Groves. In addition, the program educates and encourages the public and decision-makers about the importance of trees and the need to care for and protect them.

## ELIGIBLE TREES

Qualifications for consideration for Tree of Distinction status include:

- A tree that has attained significant size in height, circumference, or canopy spread for its species type
- A rare, unique, or unusual species of tree for this area
- A tree representing a historic event, person, or property

In addition to the above criteria, to qualify as a Tree of Distinction, the tree must not constitute a hazard or obstruction and must be prominently visible from public streets, parking lot or parks and open space.

**Any person or organization can nominate a tree. The Green Space Advisory Commission will review all nominations. Awardees will be honored at the City's annual Arbor Day celebration.**
